

20<sup>th</sup> March, 2023

To,  
Recruitment Officer,  
JPMorgan Chase & Co,  
Mumbai

Dear Sir/ Maam,

I'd like to apply for the Software Engineering Internship at JP Morgan Chase & Co. in the summer of 2024. As a second-year computer engineering student with experience in full stack web development, I am excited about the opportunity to build actual software engineering skills, work alongside a mentor, and contribute to the growth of JP Morgan Chase & Co.

As a full-stack web and app developer with experience in frontend and backend development. I'm confident that my skills and capabilities align perfectly with the requirements for this position. I have experience in various programming languages, including Python, Javascript, and C++, C. I've acquired significant experience working with frameworks like Express, React, and Next.js. I also possess soft skills that are essential for success in a software engineering role. I have worked with various coding languages, so easily adapting to new challenges and technology. My curiosity motivates me to seek out new chances for learning and innovation in all sectors, ensuring that I stay up to date on the latest developments in technology.

As a developer who is passionate about data science and finds pleasure in working with data. I am fascinated by data structures and algorithms, and I have strong logical and analytical skills. I tackle issues with a sense of curiosity and strive to find innovative answers. I have taken part in many hackathons where I have both learned and made substantial contributions. I am driven and enthusiastic about creating technologies that can make a worldwide impact. I am fascinated with designing, building, creating, and executing future apps with ongoing integration and deployment. I am excited to participate in developing technology platforms that can help numerous individuals and tackle significant issues.

I am interested in the Software Engineer Intern position at JPMorgan Chase & Co. as part of the Summer Internship 24 program. Please find the resume attached and contact me via phone or email. Thank you for your time, and I look forward to your response.
